Tilt & Slide Doors

Tilt and Turn Windows

Note. Tilt and Turn windows made as a single panel without the partition has limits of Max width = 1400 mm and height = 1500 mm.

Tilt only Windows

Note. Min height of 400 mm apply to tilt only windows.

Euro Slide Windows

Notes. Min height of 700 mm apply to Euro slide windows. Not available in white colour frames.

Fixed Windows

UPVC WINDOWS AND DOORS WITH DECORATIVE PARTITIONS

Doors

Decorative partitions are available with any door or window. As partitions are installed in the space between two panes of glass, this means you can have a colonial or French style house without the hassle to clean the small panes of glass and dust collecting partitions.

Windows

uPVC doors & windows colour options

uPVC frames are made from special UV-resistant formula which comes in white colour. You can also choose your uPVC doors and windows in 10 different colours.

You can also create a different look for the inside and outside of your home choosing different colours for internal and external sides of the frame.

We use RENOLIT EXOFOL FX high-performance films to the frames for high UV index outdoor and indoor applications.
